ITagree

# Make customer contracts watertight

## Get the agreements you need and start managing your business risk today

### Key features

- Access to tools, agreements and guidance
- Video tutorials and guidance
- Member-only forum
- Ability to customise agreements to your business needs
- Automatically receive updates as they become available

### Why partner with ITagree?

ITagree provides the confidence you need when it comes to customer contracts. Through the Beacon Bundle subscription, partners gain quick and easy access to tools, agreements, and guidance. The customisable templates, step-by-step advice, video tutorials, and member-only forums give you confidence that your customer contracts are watertight now and in the future, with the added reassurance of automatic agreement updates.

### Challenges ITagree solves

Contracts are often seen as challenging to navigate, from understanding complex terms and conditions to ensuring they remain up to date as regulations change. ITagree allows you to stay on top of customer contracts, understand complex vendor terms and conditions and ensure the right agreements are in place. With the proper contracts, you can remain risk-averse, adaptable to change and capitalise on opportunities. ITagree makes creating and managing customer contracts simple, including handling Microsoft agreements.

### Opportunities for MSPs

ITagree allows you to capitalise on opportunities and adapt to change with secure contracts. The Beacon Bundle subscription provides you with up to 5 agreements as standard, including but not limited to:

- Cloud Supply Agreement (Microsoft/CSP Partners)
- Managed Services Agreement
- Private Cloud Hosting Agreement
- Security Services Agreement
- SaaS Supply Terms (reseller, multi-product)
